About me

I am a full-stack developer with over 10 years of experience building web and mobile applications. I work with React, Next.js, React Native, Node.js and NestJS, as well as PostgreSQL, Firebase and Google Cloud. I have built frontends from scratch, developed core product features and led a team. I create and maintain Poznay and PetShift.

Core technologies TypeScript · React · Next.js · Node.js · NestJS · React Native

Professional experience

VELIFI

Feb 2025 — Nov 2026

Senior Software Engineer

- Built the frontend for a new freight-forwarding product from the ground up.
- Worked in a small team during development, before the product's release.

Technologies: React · TypeScript · SCSS Modules · Material UI · Playwright · React Testing Library · Jest · Micro frontends · Design system

Ship.Cars

Jan 2024 — Jan 2025

Senior Frontend Developer

- Developed core features for vehicle-transport software.
- Worked with a modular frontend split into packages for different parts of the application.

Technologies: React · TypeScript · SCSS Modules · Material UI · Jest · React Testing Library

DesignTechnologies

Jul 2022 — Jan 2024

Senior Software Engineer

- Developed core React features for SaaS used by brands, manufacturers and resellers in the interiors industry.
- Worked with an experienced engineering team and a frontend organised into separate packages.

Technologies: React · TypeScript · Redux · Design system

Devexperts

Mar 2020 — Jul 2022

Software Engineer → Senior Software Engineer → Team Lead

- Built a Next.js frontend from scratch for a custom options-portfolio application.
- Worked on moving the client's portfolio-management workflow from Excel to a web application.

Technologies: Next.js · TypeScript · SCSS Modules · Redux Toolkit · Redux

Accedia

Jun 2016 — Mar 2020

Software Developer

- Developed web applications with SharePoint, SharePoint Online, React and AngularJS, and worked on mobile applications with React Native.

Client assignments through Accedia

- **Westum:** Worked with Salesforce Demandware.
- **Software Group:** Built a React Native mobile app for banking two-factor authentication from scratch.

Technologies: SharePoint · SharePoint Online · React · AngularJS · React Native · TypeScript · Jest · Mocha · Redux · Redux Toolkit

Technical skills

Web & mobile	TypeScript · React · Next.js · React Native
Backend	Node.js · NestJS
Styling & state	SCSS Modules · Material UI · Redux · Redux Toolkit · Design system
Testing	Playwright · React Testing Library · Jest · Mocha
Architecture & platforms	Micro frontend architecture · Modular monoliths · Microservices · SharePoint · Salesforce Demandware
Product & practice	UI/UX design · SEO · Team leadership · AI-assisted development
Databases & cloud	PostgreSQL · MongoDB · Firebase · Google Cloud

Independent projects

Poznay.bg Live web

I create and maintain a Bulgarian word game with daily challenges and practice modes.

The web game is live. iOS and Android versions are in development.
poznay.bg

PetShift Closed beta

I create and maintain an app that helps people bring their pets to work.

It combines a shared calendar, workplace capacity and pet rules.
petshift.app

How I work

I use AI tools in my day-to-day development work to work more efficiently and improve code. I review and test their suggestions. My experience also includes automated testing, UI/UX design and SEO.
